

Defibrillatoren können Leben retten – Jeder kann helfen!

HeartSine PDU 400

80% of all Sudden Cardiac Arrests happen in the home, at work or during leisure time. The HeartSine PDU 400 is designed for adults and children over 8 years old or 25kg. Turn on, follow the instructions, and apply a shock if required. 5 year Manufacturer's Warranty – Automatic self test, complete with accessories and a 25€ voucher for training in CPR. CE, SGS, IP44

HeartSine samaritan 300P – for Commercial Users

With a combined PAD-Pak for use on adults and children over 8 years old or 25kg. 7 year manufacturer's warranty, 3.5 year stand-by. Replacement battery/pads only €99. For companies, offices, hotels, fitness, transport. Free software updates, complete with carry case (wall case optional) and accessories. CE, SGS, IP56, HGV and Military Approved

HeartSine 500P – with CPR advice

Giving a shock is very easy. Often CPR is the hard part and is often not preformed to the required standard. The HeartSine 500P with CPR advisor has all the benefits of its sister device the 300P – lightweight, with audio and visual prompts. However the HeartSine 500P with CPR Advisor offers more – Feedback on CPR such as 'Push Faster', 'Push Slower' 'Push Harder' or 'Good Compressions' Ideal for lay users, semi-professional or professional users. 7 year guarantee, 3.5 year battery life. For companies, offices, hotels, fitness, transport. Free software updates, complete with carry case (wall case optional) and accessories. CE, SGS, IP56, HGV and Military Approved
